PROFESSIONAL SUMMARY

Results-driven Data Analyst with comprehensive expertise in Python, SQL, Power BI, and Excel. Proven ability to transform complex datasets into actionable business insights. Strong foundation in statistical analysis, data visualization, and database management. Passionate about leveraging data science techniques to drive strategic decision-making and optimize business performance.

SKILLS

- **Programming Languages:** Python (Pandas, NumPy, Matplotlib, Seaborn)
 - **Data Management:** SQL (MySQL, PostgreSQL, Data Querying, Joins)
 - **Visualization & BI Tools:**
 - Power BI (DAX, Power Query, Dashboard Creation)
 - Microsoft Excel (Advanced Formulas, Pivot Tables, VBA)
 - Data Storytelling & Report Generation
 - Interactive Dashboard Development
 - **Core Competencies:**
 - Database Management & ETL Processes
 - Business Intelligence & KPI Development
-

PROJECTS & PRACTICAL EXPERIENCE

Data Analysis & Visualization Projects

- Developed comprehensive data analysis workflows using Python libraries (Pandas, NumPy)
- Created interactive dashboards in Power BI showcasing key business metrics and trends

SQL Database Projects

- Designed and optimized database queries for complex data extraction requirements
 - Performed data manipulation operations including joins, aggregations, and subqueries
-

CORE PROJECTS

Currency detection for visually impaired people

- Developed a Mobile Application for Detection and Identification for Visually Impaired People created a Dataset using Indian Currency Models(current) for users
- Especially for the blind peoples this is Very much useful. The main aim of this project is to get the desired outcome in the way of Audio...

Marketing Analytics

- Designed and implemented an **end-to-end marketing analytics automation system** to streamline cross-functional data flow between **marketing, sales, operations, and finance** teams.
- Built **ETL pipelines using Python and Google BigQuery**, automating data ingestion, transformation, and integration from **Meta Ads, CRM systems, and internal databases**.
- Developed **data cleaning, deduplication, and validation scripts**, improving **data quality by 95%** and reducing manual data handling time by **80%**.
- Automated **Power BI dashboard refresh** for real-time visualization of **key performance metrics (ROI, ROAS, CPL, and revenue)**, enabling faster business insights.
- Enhanced **decision-making efficiency by 60%** through centralizing analytics and standardizing marketing KPIs across departments.
- Delivered a **single source of truth** for performance tracking, improving data governance, reporting accuracy, and stakeholder visibility.

CERTIFICATIONS

Analytics Avenue for Research and Development | Expected: 2025

- Advanced Python for Data Science
- SQL Database Management
- Power BI Dashboard Development
- Statistical Analysis Methods

LANGUAGES

- English: Excellent (Professional Proficiency)

- Tamil: Intermediate (Conversational)

EDUCATION

2021- 2024 **BCA**

Periyar Arts college - Cuddalore, TamilNadu

2020- 2021 **HIGHER SECONDARY EDUCATION**

St. Josephs higher Secondary School- Cuddalore, TamilNadu
